FrontEnd developer with self-taught skills and creative spirit. Curious by nature with special attention to technologies, always with the ambition to develop new knowledge and participate in challenging projects.

@Mantra: “com calma e com alma”

## Projects

### Personal Portfolio

project carried out by me in order to be able to show my work on the internet.

HTML | CSS | BOOTSTRAP | SASS | JAVASCRIPT

### PasswordGen

simple project made by me to ground Sass and JavaScript logic. App allows you to generate random passwords of different degrees of strength: lowercase, uppercase, numbers and symbols.

HTML | CSS | JAVASCRIPT | WEBPACK

### Contact with login system

project made by me using JavaScript and mongoDB as a database. App allows users to login as well as record and edit contacts upon login. this project helped me to understand the CRUD system with MongoDB and Mongoose technology.

HTML | CSS | JAVASCRIPT | NODEJS | EXPRESSJS | MONGODB

### CryptoPartner

App allows the user to see real-time information about cryptocurrencies, namely commercial values, among others. Using React states/ hook made the App work dynamically and responsively. technologies used: REACT
